

Because one of the core values of NHS is service, the Halifax Chapter requires additional service throughout your high school career. All members of NHS are required to complete a minimum 10 hours of community service for each school year they are members of the club. A maximum of 5 hours may be completed during the summer and the remaining hours must be completed during the current school year. Service must be approved by one of the NHS advisors and should be completed for an organization not simply an individual. Acceptable community service requires a sponsor's signature (no family members may sign) to verify the time served. As you complete the community service, please record it on the attached log. Please be aware that community service is not paid time.

Your signature below indicates your understanding of the policy described above. Failure to complete the required service hours may result in dismissal from the club.
